

Western Gas Equity Partners, LP
Western Gas Equity Holdings, LLC
Code of Ethics for Chief Executive Officer and
Senior Financial Officers

Western Gas Equity Holdings, LLC (the “General Partner”), acting in its capacity as the general partner of Western Gas Equity Partners, LP (the “Partnership” and, together with its subsidiaries, the “Partnership Group” and, together with its subsidiaries and the General Partner, the “Company Group”), will adhere to the highest ethical standards in all of its business activities as outlined in the General Partner’s Code of Business Conduct and Ethics. This Code of Ethics (this “Code”) contains the additional policies that relate to the legal and ethical standards of conduct that the Chief Executive Officer (“CEO”) and the Chief Financial Officer (“CFO”), Chief Accounting Officer, Controller and any and all other senior financial and accounting officers of the General Partner (collectively, the “Senior Financial Officers”) are expected to comply with while carrying out their duties and responsibilities on behalf of the Company Group.

In this role, I will adhere to and advocate to the best of my knowledge and ability the following principles and responsibilities governing professional conduct and ethics:

1. Act with honesty and integrity, avoiding actual or apparent conflicts of interest in personal and professional relationships. A “conflict of interest” exists when an individual’s private interests interfere or conflict (or even appear to interfere or conflict) with the interests of the Company Group.
2. Provide constituents with information that is accurate, complete, relevant, timely and understandable, and consistent with the Company Group’s policies and procedures. If I am the CEO or CFO, I shall review the Partnership’s annual and quarterly reports before certifying and filing them with the Securities and Exchange Commission (the “SEC”).
3. Comply with all applicable laws, rules and regulations of federal, state and local governments, and other appropriate private and public regulatory agencies.
4. Act in good faith, responsibly, with due care, competence and diligence, without misrepresenting material facts or allowing my independent judgment to be subordinated.
5. Respect the confidentiality of information acquired in the course of business except when authorized or otherwise legally obligated to disclose the information. I acknowledge that confidential information acquired in the course of business is not to be used for personal advantage.
6. Proactively promote ethical behavior among employees in the Company Group and as a responsible partner with industry peers and associates.
